OPISTEP**BY**STEP

OPI GelColor

CREATE THIS LOOK

On a properly prepared nail, apply a thin coat of **OPI GelColor ProHealth Base Coat**. Cure 30 seconds in the **OPI Dual Cure Light.**

1

Apply two thin coats of **OPI GelColor Ornament to Be Together**. Cure each coat 30 seconds.

2

With **OPI GelColor Feel the Chemis-tree** push the product to create an additional cuticle line.

3

Apply second coat of **OPI GelColor Feel the Chemis-tree**. Do not cure. With a dotting tool, apply **OPI GelColor Snow Glad I Met You** to create swirls. Cure 30 seconds.

4

Cut a small piece of pink colored transfer foil and dab onto nail.

PRO TIP

This design can be done heavily with more dots of GelColor or it can be done lightly like the design shown.

Foil was used lightly in our look to showcase the design underneath. Foil can be applied heavily or lightly. For a heavier foil look, cure a thin layer of base coat before applying transfer foil.

If using the **OPI Studio LED Light**, cure **OPI GelColor ProHealth Top Coat** for 45 seconds.

Apply a thin coat of **OPI GelColor ProHealth Top Coat.** Cure 30 seconds. Remove gel residue with **Expert Touch Nail Wipe** and **N.A.S. 99.**
