- FLEX Silver 100/180 Buffer
- FLEX Green 220/280 Buffer
- ProSpa Cuticle Oil

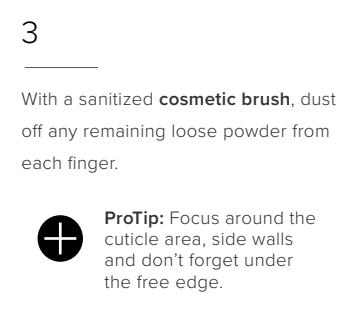

1

Brush on one coat of **Base Coat** to a single nail making sure to cover the entire surface of the nail evenly.

2

Angle clients finger slightly downward. Using an acrylic brush, tap **Color Powder Kiss Me I'm Brazilian** at the top of the nail, over two areas of the nail of your choosing. Quickly tap **Color Powder Bubble Bath** at the base of the nail. Repeat for coverage then tap to remove excess powder. Complete one nail at a time.

3

With a sanitized **cosmetic brush**, dust off any remaining loose powder from each finger.

ProTip: Focus around the cuticle area, side walls and don't forget under the free edge.

4

Apply a second coat of **Base Coat** and repeat the marble tapping technique on each nail by repeating **STEPS 1-3**. Remove excess powder.

5

Brush on one even coat of **Base Coat** and dip into **Clear Color Set Powder** at a 45° angle. Tap off the excess powder and dust off any remaining powder.

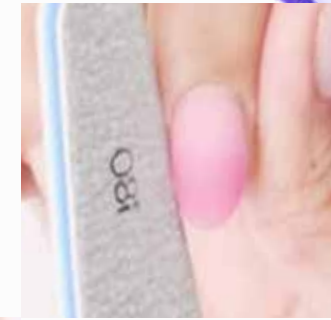

6

Apply one generous coat of **Activator** making sure to cover the entire surface of the nail. Cap the free edge to fully seal in the powder. Wait 1-2 minutes for the nails to harden.

7

Shape and contour the nails with a **180 Grit File**. When contouring, focus around the cuticle area and sidewalls to prevent a bulky looking enhancement. Buff the nail surface with a **180 Grit Buffer** and continue to smooth with a **220 Grit Buffer**. Remove excess filing dust.

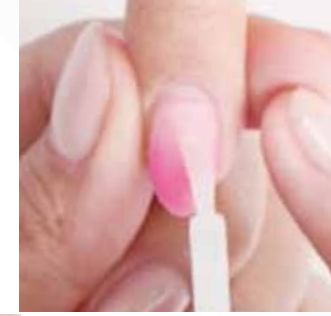

8

Apply a second coat of **Activator** making sure to cover the entire surface of the nail. Wait 1-2 minutes to dry. Not waiting for the activator to fully dry will cause your **Top Coat** brush to harden.

9

Evenly apply one coat of **Top Coat** using 2-3 quick brush strokes. Wait 1-2 minutes to dry.

10

Using 2-3 brush strokes, apply a second coat of **Top Coat**, this time with precision. Wait 1-2 minutes to dry.

ProTip: Overworking the product or applying too much product will result in a matte finish.

11

Once dry, drop **ProSpa Cuticle Oil** and massage into cuticles.
