Complete Powder Perfection Nail Prep Step by Steps

BEFORE YOU BEGIN!

POWDER PERFECTION | Products Used

- Base Coat
- Mexico City Move-mint Powder
- Mural Mural on the Wall Powder
- My Chihuahua Doesn't Bite Anymore Powder
- Coral-ing Your Spirit Animal Powder
- Clear Color Set Powder
- Cosmetic Brush
- Activator
- Dotting Tool
- Fine Carbide Safety Bit/ Mandrel + Sanding Band OR 180 EDGE File, 100/180 & 220/280 FLEX Buffers
- Top Coat
- ProSpa Nail & Cuticle Oil

Step by Steps

1

Apply 1 even coat of Base Coat and dip into Mexico City Move-mint. Allow the product to absorb and dust off excess. Repeat for coverage.

2

Use a dotting tool and Base Coat to apply various sized dots throughout the nail and immediately pour Mural Mural on the Wall to the tip of the nail.

3

Proceed with Coral-ing Your Spirit Animal to the middle nail and My Chihuahua Doesn't Bite Anymore to the middle of the nail to create a dotted ombre effect. Dust off excess with a cosmetic brush.

4

Apply 1 even coat of Base Coat and dip into the Clear Color Set Powder. Allow the product to absorb and dust off any remaining powder. Apply one generous coat of Activator to the nail surface and allow 1-2 minutes for the nails to fully harden.

5

With a Fine Carbide Safety Bit or a Mandrel + Sanding Band, shape and contour the nail as desired. If shaping by hand, use a 180 EDGE File followed by a 100/180 and 220/280 FLEX Buffers. Once complete, remove excess filing dust.

6

Apply a second generous coat of Activator to the nail, making sure to cover the entire surface. Wait 1-2 minutes before applying Top Coat. Not waiting for the Activator to dry will cause your brush to harden.

7

Apply one even coat of Top Coat using 2-3 quick brush strokes. Wait 1-2 minutes to dry. Repeat this step, but this time with more precision as this is the final step. Wait 1-2 minutes to dry.

Finish

Finish by removing the excess powder with a cosmetic brush. Add a drop of Cuticle Oil to each nail and massage in.
